

Azza Ibrahim Ali Shaaban

Backend ASP.NET Developer

Ashmoun, Menoufia, Egypt

Phone: +20 1025697290 | Email: iazza0332@gmail.com

Summary

Results-driven Junior Backend Developer with hands-on experience building secure, scalable web applications using ASP.NET Core Web API, ASP.NET MVC, Entity Framework Core, and SQL Server. Proficient in Clean Architecture, SOLID Principles, and RESTful API design. Experienced in JWT Authentication, ASP.NET Identity, and multi-language localization (Arabic / English). Passionate about writing clean, maintainable code and eager to contribute to a collaborative development team.

Education

Menoufia University

2025

Bachelor of Science in Physics & Computer Science Department | Grade: Very Good

Experience

ITI Full Stack Web Development using .NET (120 Hours)

Jul 2024 – Aug 2024

Completed an intensive training program covering C#, ASP.NET MVC, Entity Framework Core, and SQL Server, applying skills directly through multiple hands-on projects.

Rowad Al-Rakmeya (Digital Pioneers) Scholarship

In Progress

Skills

Backend Development: ASP.NET Core Web API, ASP.NET MVC, RESTful APIs, Entity Framework Core, LINQ, OOP

Languages: C#, HTML, CSS

Database: SQL Server, EF Core, Database Seeding

Architecture & Patterns: Clean Architecture, SOLID, Dependency Injection, Generic Repository, Unit of Work, Specification Pattern

Security & Authentication: JWT Authentication, ASP.NET Identity, Global Exception Handling

Localization: Multi-language support: Arabic / English

Tools & Technologies: Mapster, Serilog, FluentValidation, Pagination, Git, GitHub, Postman, Bootstrap, Razor, Agile, Unit Testing

Projects

Haneshtabhalak Platform (Graduation Project)

[GitHub](#) | Backend Developer

- Built RESTful API endpoints and a SQL Server database with an Admin Dashboard using ASP.NET MVC.
- Implemented JWT Authentication, ASP.NET Identity, and Twilio OTP verification for secure user access.
- Developed full Arabic / English localization, delivering native multi-language support for all end users.
- Integrated Mapster, Serilog logging, Pagination, and Global Exception Handling for production-ready code.
- Applied Database Seeding and deployed the application live on MonsterASP.NET.

Course Management System

[GitHub](#) | In Progress

- Refactored Repository and Unit of Work into a reusable Generic Repository Factory, reducing duplicate data-access code across multiple entities.
- Applied the Specification Pattern, Pagination, and custom Middleware for centralized validation and error handling.
- Added OTP verification and Email / SMS notification support.

University Activities Management System

ITI Training Project

- Built with ASP.NET MVC and EF Database-First approach on SQL Server.
- Implemented Razor views with Bootstrap, Session-based Authentication, and full CRUD operations.

Soft Skills & Languages

Soft Skills: Problem Solving, Teamwork, Communication, Analytical Thinking, Time Management, Fast Learner

Languages: Arabic (Native), English (Very Good)
